

SB 1383 - New Statewide Mandatory Organic Waste Collection Regulation

What is the new law?

The California State Legislature passed Senate Bill 1383 (SB 1383) which requires cities and counties to reduce organic waste disposal by 75% by 2025. Beginning January 1, 2022, all California residents, businesses, and multifamily complexes will be required to separate food waste and yard waste from their trash and recycle in a separate organics cart.

What do I need to do?

1. Effective immediately, residents are required to recycle food scraps with yard trimmings in existing green waste container.
2. Effective immediately, businesses and multi-family properties are required to recycle all organics, including food scraps.
3. Continue to Recycle Right - see the Guide below.
